

2018 ICCF Board Member Biographies

David N. Wells

President

Life Purpose: To Love God, love others and serve the world.

Along with his strong heart for God and others, Dave Wells brought years of ministry and business experience to the group that formed ICCF, and he has been a dedicated member since its inception. Serving people at home, in his local church, and on the mission field are among his deepest joys. Dave received his bachelor and master's degrees from Eastern Nazarene College and has done post-graduate work in psychology and marketing at Michigan State University and New Hampshire College. He currently leads a Journey Group and writes a weekly devotional.

John Crandall

Treasurer

John owns and operates the Blackberry Bakery along with his wife, Rhona. A business man with a heart for children, John saw the passion of his father, Rev. Francis Crandall, who started the foundation in 2001, and was moved to serve Jesus in the same way. He now works to continue the mission as God directs and strengthens him. It is an honor and great privilege to feed the homeless children in the name of Jesus our Lord.

Barbara Calhoun

Secretary

"I am responsible."

A kid at heart herself, Barbara Calhoun has been working with children for most of her life, starting as a teenager in her local church. After college, she started a Kids' Choir at her church and led the Children's Program at various family camps and retreats. She serves on the Sunday School Ministries board of the New England district and has directed New England Nazarene children's camps for many years. Her experience working with children in Russia expanded her heart for children around the world and led her to join ICCF. Barb is passionate about helping children understand how precious they are, find their special gifts, and be all that God intended them to be. She holds a bachelor's degree from Eastern Nazarene College and is a Senior Product Manager at Jenzabar, Inc.

Bruce Monk

Member & Technical Advisor

"Giving is easy once you see the needs first hand."

An engineer and serial entrepreneur, Bruce came to ICCF with years of experience working around the world with governments and international organizations in fraud detection. During business and mission trips, especially right after the collapse of the Soviet Union, he observed the breakdown of the family unit and its devastating impact on children. With 100% of donations going directly to support children, ICCF provided the opportunity for Bruce to join with respected colleagues in giving hope to "the least of these" who so desperately need it.
